

行政院所屬各機關因公出國人員出國報告書

(出國類別：出國考察)

赴加拿大渥太華海關總署考察研討 WCO
共同資料項目 (Common Data Element)

出國人服務機關/職稱姓名：

財政部高雄關稅局：課長 林上根

財政部關稅總局：設計師 林義雄

財政部關稅總局：設計員 林清和

財政部基隆關稅局：設計員 林俊甫

出國地點：加拿大渥太華

出國期間：九十二年十二月十五至十七日

報告日期：九十三年三月二日

DS/c09300830

系統識別號:C09300830

公 務 出 國 報 告 提 要

頁數: 12 含附件: 是

報告名稱:

赴加拿大渥太華海關總署考察研討WCO共同資料項目 (Common Data Element)

主辦機關:

財政部關稅總局

聯絡人/電話:

郭文娟/25505500-1126

出國人員:

林上根	財政部高雄關稅局	課長	
林義雄	財政部關稅總局	資料處理處	設計師
林清和	財政部關稅總局	資料處理處	設計員
林俊甫	財政部基隆關稅局	設計員	

出國類別: 考察

出國地區: 加拿大

出國期間: 民國 92 年 12 月 15 日 -民國 92 年 12 月 17 日

報告日期: 民國 93 年 03 月 02 日

分類號/目: D5/關務 D5/關務

關鍵詞: WTO, WCO, 共同資料項目

內容摘要: 爲因應加入世界貿易組織 (WTO) 之國際化情勢，並符合七大工業國 (G7) 及世界關務組織 (WCO) DATA MODEL的規範，我國海關對於通關程序之簡化、資料項目之調和(Harmonization)與資訊之交流工作，以利無紙化跨國連線作業，並達國際性貿易之便捷化是無可避免的趨勢。本代表團奉派加拿大渥太華海關總署參訪考察WCO共同資料項目，對於WCO共同資料項目(Common Data Element)的名稱、定義及其調和 (Harmonization) 對應方式等相關問題上獲得明確解答，對我國在比對WCO 共同資料項目的工作上，有相當大的幫助，會後並與加國人員協商雙方工作備忘錄及合作事宜。本次出國報告將針對此次出國參訪背景緣由、各日行程及工作紀要加以說明，最後並提出心得與建議。

本文電子檔已上傳至出國報告資訊網

壹、參訪背景說明

一、背景說明：

(摘錄自財政部關稅總局「貿易無紙化專題研究報告」)

民國九十年二月九日財政部以台財關字第○五五○○○四八號函指示本總局積極研究義大利、美國、德國、英國、法國、日本及加拿大等七大工業國(以下簡稱 G7)共同資料項目(Common Data Elements)納入關稅資料庫，俾利跨國連線作業。

另外，政府為因應加入世界貿易組織(以下簡稱 WTO)及迎接新經濟時代之來臨，由經濟部、交通部、財政部共同主辦之「建構新經濟數位貿易計畫」乙案，其中簡化通關程序、調合進出口報單與輸出入許可證、同意文件格式(單證合一)、輸入管理之簡化與自由化、推動與外國進行無紙化貿易之經驗交流與合作、推動中澳電子檢疫文件及報單資料交換先導計畫等，多與海關業務有關，須由海關配合辦理。

鑒於貿易無紙化/便捷化為亞太經濟合作會議(以下簡稱 APEC)主要推動項目之一，WTO 亦可能列為討論之議題，為順應世界潮流，海關實有成立專案小組預為研議之必要，遂成立「貿易無紙化專題研究小組」著手推動研究工作，並於九十一年九月完成「貿易無紙化專題研究報告」一書。

G7 對建立進出口「共同資料項目」與標準化電子格式已達成共識，並於 2000 年十二月於京都舉行之 G7 海關專家會議中訂定「京都關務資料原則 (Kyoto Customs Data Principles)」該原則為首創之關務程序所需資料要件之國際性規則，預料未來將為京都公約第二。G7 關務規範已於 2002 年年初正式移交由 WCO 接續負責維護及推廣，我國海關並於九十二年完成 WCO DATA version 1.0 共同資料項目的比對工作。

二、參訪緣由：

但鑒於文化與語言的差異，我國海關在與 WCO 共同資料項目的比對工作上，對於共同資料項目的名稱及定義等調和 (Harmonization) 問題一直存在合適性的爭議，即困惑我方如此對應資料項目是否正確，因此希望能有國外專家的幫助，最好能邀集 G7 的專家來台講解討論有關 WCO 共同資料項目事項。

又因我國為 APEC 會員國，且我方在參加亞太經濟合作關務程序次級委員會（以下簡稱 APEC/SCCP）會議時承諾將於九十三年二月前接受 APEC/SCCP 共同資料項目技術工作小組檢視 WCO 共同資料項目實行情形，爰由關稅總局徵課處吳秀真君透過電子郵件與該技術工作小組主席（加拿大海關）Mr. Lorne Lawson 聯繫，L 君爰安排此次赴加拿大渥太華海關總署考察事宜。

本代表團遂由高雄關稅局林課長上根領隊，參加成員尚有關稅總局林義雄、林清和及基隆關稅局林俊甫等人，奉派加拿大渥太華海關總署參訪考察 WCO 共同資料項目等有關事項。

貳、行程及紀要

相關參訪行程由我方駐加拿大台北文化經濟代表處人員與加國海關人員敲定，如附件一所示，各日行程說明如下：

一、第一天（十二月十五日）行程：

上午由 APEC/SCCP 共同資料項目工作小組主席暨加拿大海關國際與國內合作處處長 Mr. Lorne Lawson 致歡迎辭外，並由系統作業處處長 Mrs. Rachelle May 簡報加拿大通關作業程序及簽審單一窗口流程（附件二）。

中午利用時間拜會駐加拿大台北文化經濟代表處由經濟組陳組長接待並向江簡任秘書文若妥善安排行程致謝。

下午參訪加拿大海關之資訊技術部門，由局長 Mr. Al Malo 及經理 Mr. Watson Seto 簡報加國通關自動化系統及其硬體架構等內容（附件三）。

二、第二天（十二月十六日）行程：

上午由加國參與 WCO Data Model 設計之技術經理 Mr. Eric Sunstrum 簡報 G7/WCO 共同資料項目調和之發展、加拿大與英國之先導測試計劃等內容（附件四），為利加方瞭解我國通關自動化作業現況，我方也由林設計師義雄簡報我國海關通關系統。

下午則針對我國進口報單對應 WCO 1.0 版 IM1 資料項目逐項

討論其合適性。

三、第三天（十二月十七日）行程：

整日延續第二天下午工作，逐項討論我國進口報單資料項目對應 WCO 1.0 版 IM1 之合適性。

雙方並於會後擬定工作備忘錄（附件五），後續合作事項如出口報單及進出口艙單未討論部分，加方願意透過電子郵件方式繼續提供協助。至於我方提出調和 WCO 共同資料項目時所遇到之相關問題，加方也回覆如附件六。Mr. Eric Sunstrum 並提供資料項目比對原則（附件九）之說明文件，供我方參考。

參、心得與建議

此次參訪赴加拿大渥太華海關總署考察研討 WCO 共同資料項目幸不辱使命，我等非常感謝加拿大海關及我國駐加拿大台北文化經濟代表處人員所提供的幫助，對於 WCO 共同資料項目(Common Data Element)的名稱、定義及其調和 (Harmonization) 對應方式等相關問題上獲得明確解答，對我國在比對 WCO 共同資料項目的工作上，有相當大的協助。

另透過加國通關業務人員的簡報資料，可約略瞭解加國海關的通關程序，對於我國通關程序之簡化與修正，可提供我國海關借鏡，爰提供此次參訪之心得與建議供層峰及各相關單位參考：

- (一) 加國之單一窗口介面(OGD Single Window) 係由廠商上網向簽審機關申請輸出入許可，再由簽審機關傳送許可文件訊息至海關核銷，與我國現行簽審作業類似（詳附件二）。
- (二) 加國現行採二段式報關，即第一段申報簡易可供海關放行之資料，第二段申報可供計稅之資料，惟該國認為二段式報關會有資料斷層的問題存在（詳附件四），未來將採一段式報關以解決問題。
- (三) 加國目前提供私人企業或通關網路公司直接與海關連線，並有多達十五個通關網路公司存在。在收費方面，加國海關向

直接連線之業者，每年收取 250,000 加幣（約台幣六百五十八萬元）之網路連線費，並不付與通關網路公司任何費用。

因此，我國海關在通關網路傳輸費用方面，應有檢討的空間。

（四）不論 WCO Data model 或加拿大與英國之先導測試計劃（詳附件四），皆使用 UCR (Unique Consignment Reference) 以作為貨物的追蹤，我國海關通關相關訊息未來是否使用 UCR，建議由業務主管單位研議。

（五）此次參訪會後與加國擬定 WCO 共同資料項目雙方工作備忘錄（詳附件五）。鑒於比對 WCO 共同資料項目，除需資訊技術人員外，更需要熟悉通關業務者參與，為做好 WCO 共同資料項目比對工作及完成雙方工作備忘錄內容，海關應邀集熟悉通關業務及資訊相關人員組成 WCO 共同資料項目進口報單、出口報單、艙單三組研討工作小組。

（六）此次參訪會後曾口頭徵詢加拿大海關國際與國內合作處處長 Mr. Lorne Lawson 邀請加國 WCO 共同資料項目專家來台進行技術交流之意見，L 君稱我方可以電子郵件或正式函邀請。為加強台加雙方海關交流，職等建議我國應邀請加國 WCO 共同資料項目專家來台進行技術交流，促進雙方海關關務合作。

(七) 另駐加拿大代表處經濟組於拜會時提出，偶需函海關提供台加進出口統計資料，建請國內海關於第一時間提供最新資料，以利於最佳時效推動台加兩國經貿業務。

附 件

附件一、參訪加拿大渥太華海關之行程

附件二、加拿大通關作業程序及簽審單一窗口流程之簡報資料

附件三、加拿大通關自動化系統架構之簡報資料

附件四、G7/WCO 共同資料項目調和發展之簡報資料

附件五、台加兩國海關雙方工作備忘錄

附件六、我方提出調和 WCO 共同資料項目之相關問題

附件七、加方針對我方 WCO 共同資料項目相關問題之回答

附件八、我國進口報單對應 WCO 1.0 版 IM1 資料項目

附件九、Data Element Review Principles

參訪加拿大渥太華海關之行程

Visit to the Canada Customs and Revenue Agency (CCRA) by

CHINESE TAIPEI CUSTOMS

December 15 - 17, 2003

PROPOSED PROGRAMME

December 15, 2003

Ottawa

**LOCATION: SIR RICHARD SCOTT BLDG., 191
LAURIER AVE. W.
9TH FLOOR BOARDROOM**

10:00 – 10:15 ARRIVAL OF THE DELEGATION

**LORNE LAWSON, DIRECTOR, STRATEGIC INTERNATIONAL AND
DOMESTIC RELATIONS DIVISION, PROGRAM STRATEGY
DIRECTORATE**

Welcome and opening remarks

10:15 – 10:45 SINGLE WINDOW INITIATIVE

**RACHELLE MAY, DIRECTOR, SYSTEMS OPERATIONS DIVISION,
MAJOR PROJECT DESIGN AND DEVELOPMENT DIRECTORATE**

Introduction and overview of the CCRA's Commercial Systems,
ACROSS, and OGD Single Window Interface

10:45 – 11:00 COFFEE BREAK

11:00 – 12:00 SINGLE WINDOW INITIATIVE (CONT'D)

12:00 – 14:00 LUNCH

14:00 – 14:30 TRANSPORTATION TO BILLINGS BRIDGE TOWER

**14:30 – 16:30 LOCATION: BILLINGS BRIDGE TOWER
09-0907, 2323 RIVERSIDE DRIVE**

IT SYSTEMS

INFORMATION TECHNOLOGY DIRECTORATE

Introduction and overview of the CCRA's IT Systems

IS DAY

Visit to the Canada Customs and Revenue Agency (CCRA) by

CHINESE TAIPEI CUSTOMS

December 15 - 17, 2003

PROPOSED PROGRAMME

December 16, 2003

Ottawa

**LOCATION: SIR RICHARD SCOTT BLDG., 191 LAURIER
AVE. W.
9TH FLOOR BOARDROOM**

09:00 – 10:30 INTRODUCTIONS AND CCRA PRESENTATION

**ERIC SUNSTRUM, MANAGER, INTERNATIONAL INITIATIVES,
ADVANCE COMMERCIAL INFORMATION DIVISION, MAJOR
PROJECT DESIGN AND DEVELOPMENT DIRECTORATE**

Welcome, introductions and presentation on CCRA implementation of
WCO Data Model.

10:30 – 10:45 COFFEE BREAK

**10:45 – 12:00 CHINESE TAIPEI PRESENTATION AND REVIEW OF
DOCUMENTATION**

Presentation by Chinese Taipei on The Roadmap to Customs Automation
and review of Chinese Taipei Documentation.

12:00 – 13:00 LUNCH

13:00 – 14:30 DATA PRINCIPLES

Discussion on Data Principles.

14:30 – 14:45 COFFEE BREAK

14:45 – 17:00 DATA DICTIONARY

Workshop on creating a Chinese Taipei Data Dictionary.

IS DAY

Visit to the Canada Customs and Revenue Agency (CCRA) by
CHINESE TAIPEI CUSTOMS
December 15 - 17, 2003

PROPOSED PROGRAMME

December 17, 2003

Ottawa

**LOCATION: SIR RICHARD SCOTT BLDG., 191 LAURIER
AVE. W.
9TH FLOOR BOARDROOM**

***09:00 – 10:30* CUSTOMS PROCEDURES AND DATA SET WORKSHOP
ERIC SUNSTRUM**

Workshop on Review of Customs Procedures and Development of
Individual Data Sets.

***10:30 – 10:45* COFFEE BREAK**

***10:45 – 12:00* DATA MODEL DEVELOPMENT**

Workshop on Developing a Data Model.

***12:00 – 13:00* LUNCH**

***13:00 – 14:30* OVERVIEWS**

Overviews on EDI Messages and Mapping, Implementation Strategies,
and WCO Data Maintenance Procedures.

***14:30 – 14:45* COFFEE BREAK**

***14:45 – 17:00* OVERVIEWS (CONT'D) AND CONCLUSION**

IS DAY

CANADA CUSTOMS

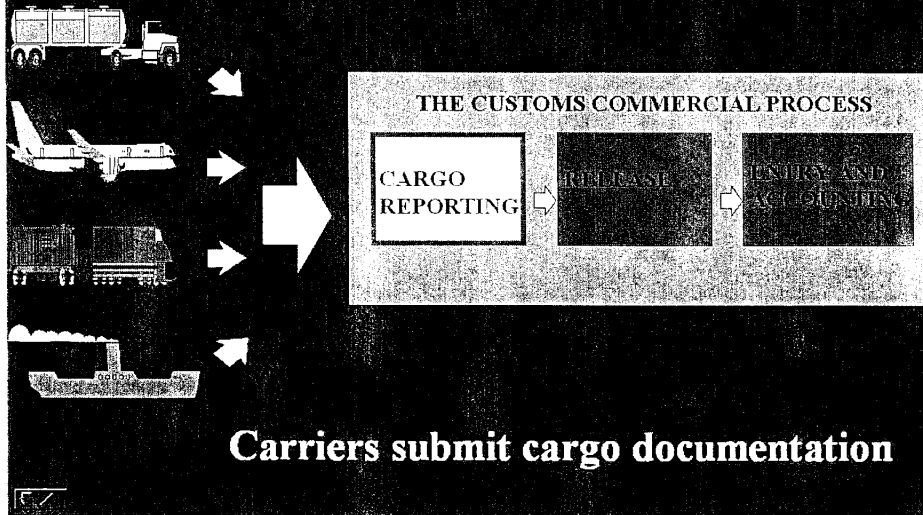

THE COMMERCIAL PROCESS

October 2003

- Commercial Process – Cargo Reporting, Release, Entry and Accounting
- Accelerated Customs Release Operations Support System
- OGD Single Window Interface
- Lessons learned
- The Customs Action Plan - Our Future Direction

THE CUSTOMS COMMERCIAL PROCESS

MARINE CARGO REPORTING

- Captures over 80% of all marine cargo documentation
- Paper savings of over 250,000 pieces per year
- Mandatory EDI Spring 2004

100%

RAIL CARGO REPORTING

- Captures approximately 80% of rail cargo documents
- Eliminates over 1 million pieces of paper annually
- Opportunities to automate export and re-manifest

THE CUSTOMS COMMERCIAL PROCESS

RELEASE ON MINIMUM DOCUMENTATION PRIOR TO PAYMENT

- **A simplified method of releasing commercial**
- **No duties are collected at the time of release**
- **Final accounting and payment of duties take place after the release of goods**
- **all importers/brokers who have posted security with the Department and who meet**

LINE RELEASE

- **Fast release of commercial imports at customs highway offices**
- **Currently only highway mode**

LINE RELEASE

- **Pre-Arrival Review System (PARS)**
- **Frequent Importer Release System (FIRST)**
- **Inland Pre-Arrival Review System (INPARS)**
- **Customs Self-Assessment (CSA)**

LINE RELEASE

- **Programs make use of facsimile and “Bar Code Technology”**

RELEASE NOTIFICATION SYSTEM (RNS)

- It provides brokers importers, carriers and warehouse operators with electronic notification of Customs releases.
- Utilizes UN/EDIFACT CUSRES

RNS: Description

The CUSRES message contains the following data elements which are transmitted to the RNS participant.

- Transaction number
- Cargo Control Number
- Date of Release
- Time of Release
- Customs Release office number

130763849503

6105E000930518

1992						
	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30	31			

Customs Self-Assessment (CSA)

- New Service Option for low risk importers
- Approved Carriers and Drivers
- No data sent in advance
- 3 Bar codes at highway arrival

THE CUSTOMS COMMERCIAL PROCESS

Importers and brokers submit accounting and statistical data

ACCOUNTING

- **Final accounting packages have to be presented no later than five business days after goods are released**
- **A late accounting penalty will be applied to each shipment**

ACCOUNTING (con't)

- **Duties can be paid monthly or interim payments can be made based on the daily statements we provide.**
- **Accounting packages are processed between the 25th of one month and the 24th of the following month. Payment is due on the last business day of that month.**

**CADEX/CUSDEC
Customs Automated Data
EXchange**

- Importers/brokers electronically transmit and receive Customs entry and accounting data
- CADEX transmissions are direct between the client and Customs
- CUSDEC transmissions use VANS

CADEX/CUSDEC

- 12 Million entries per year
- 98% participation
- 20 million pieces in paper savings

98%

2%

Entry Selection and Adjustment

Entry Selection is an automated process of the CCS which flags transaction numbers for review (SIMA).

The selected entries sent to a Specialist for review and adjustment if necessary.

These entries are selected according to relationships which are created regionally and at HQ in order to select entries based on the importers' past performance and concerns regarding the commodities being imported.

The trend is now to move to audits rather than transactional review.

✓

Redress and Refunds

- **Importers can request adjustments**
- **Refunds or re-assessment made in CCS**
- **Payment issued**

✓

Accelerated Commercial Release Operations Support System

System Features

- **EDI Release**
- **7/24 EDI Processing Centres**
- **Two Port Processing of EDI Requests**
- **National Implementation of EXCAPS**
- **Better Targeting**

An Example of EDI Release

ABC COMPANY

ABC COMPANY

• EDI Order

U.S. SUPPLIER

- EDI Acknowledgment
- EDI Invoice
- EDI Shipment Details

**ABC
COMPANY**

- Invoice
- Shipment Details

**XYZ
BROKERS**

**PARS - EDI
Release Request**

Transmitted Data Elements

- Customs Office Number
- Business/ Importer Number
- Importer Name, Address
- Vendor Name, Address
- Transaction Number
- Country of Origin
- Country of Export
- Description
- Shipment Quantity
- Shipment Quantity Qualifier
- Release Type
- Total Transaction Value
- Cargo Control Number
- Weight
- H.S. Code (mandatory for one commodity)

Pre-Arrival Risk Assessment

- Passes Validation**
- Good Client Profile**
- Meets Departmental and OGD Requirements**
- No match with Departmental or OGD Targets**

**CI Reviews Data
On-line and
Recommends
Release**

157

Truck Carrying ABC Company's Shipment Arrives at Canadian Border

Carrier Arrives At PIL

Presents the necessary documents with a bar coded number to Customs Inspector who wands it in.

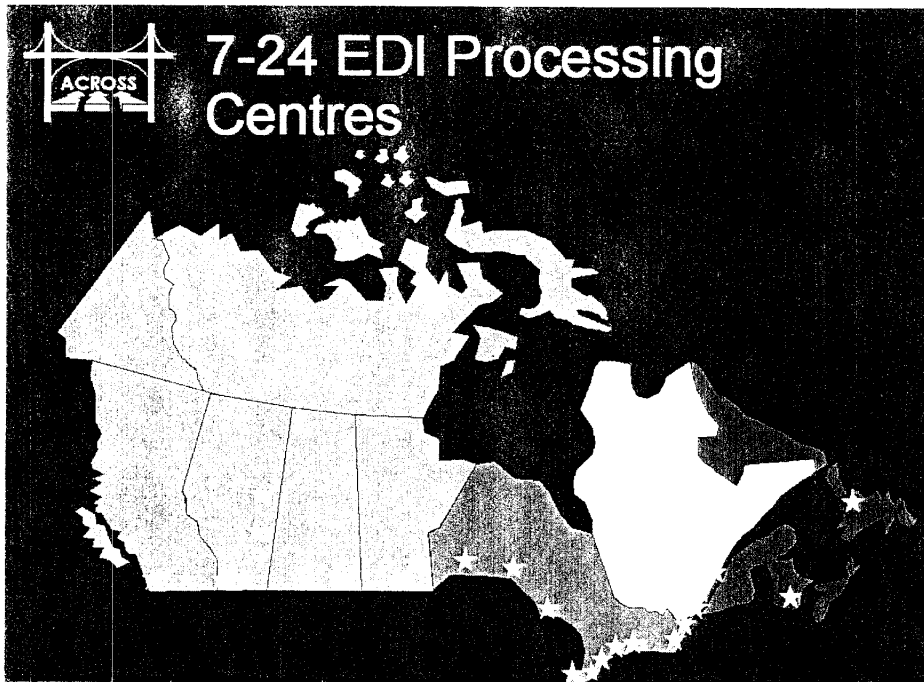

Risk Assessment at Arrival

- No match with any *new* Departmental or OGD requirements
- No match with any *new* Departmental or OGD targets

CI enters Release Decision

System Features

- **Better Targeting - we focus on high risk shipments - expediting the release of low risk shipments**
- **Targeting up to 8 data elements such as BN number, HS code, Port of entry, Country of origin etc**

ACROSS EDI Release How to Participate

- ☐ **Getting Started**
- ☐ **Participant Registration**
- ☐ **Client Representative**
- ☐ **Testing Requirements**
- ☐ **Client Costs**

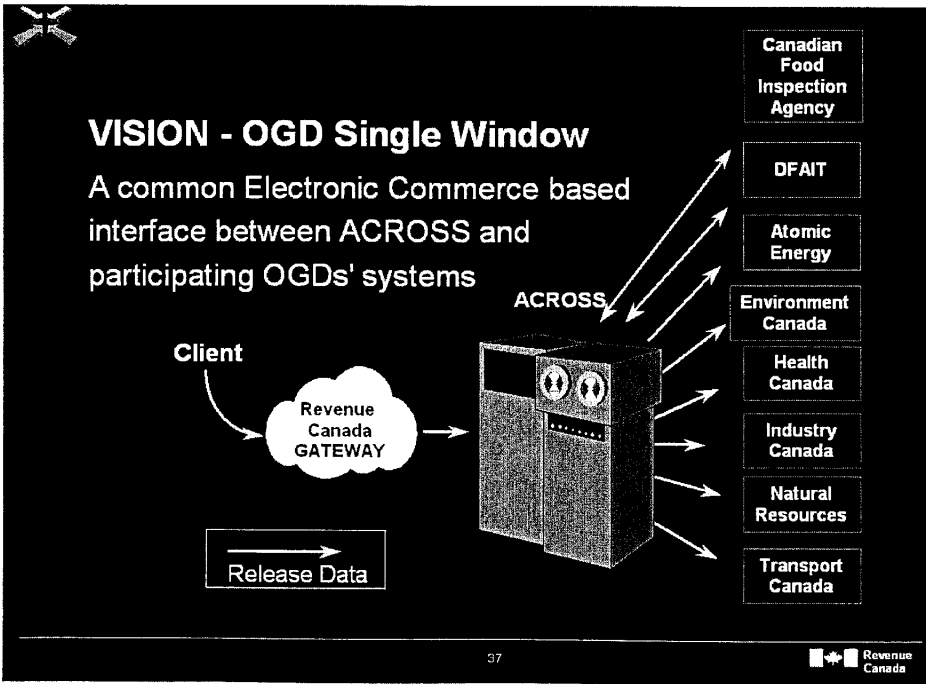

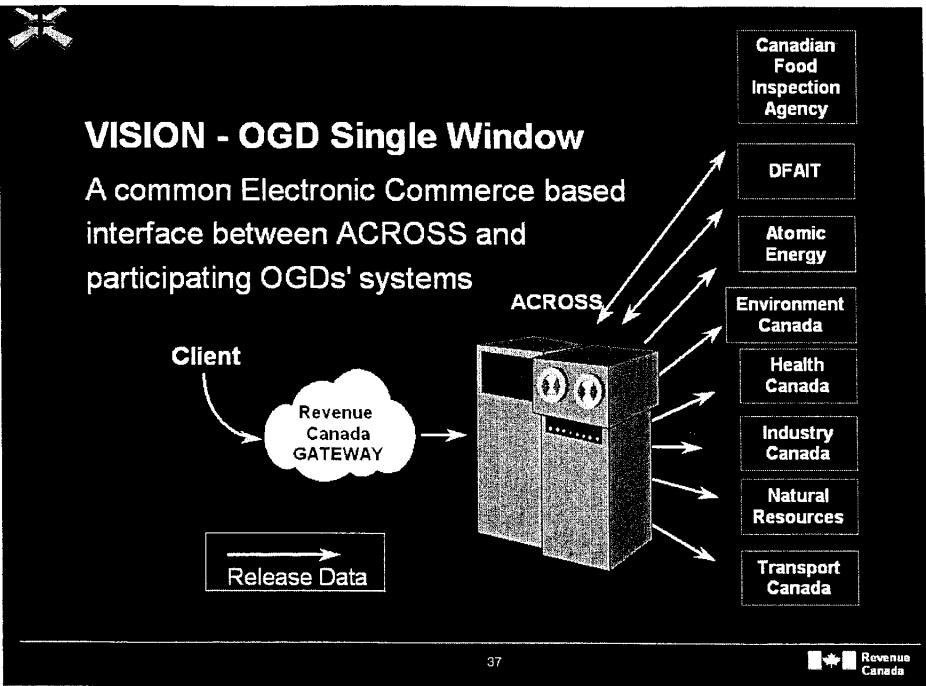

Testing Requirements

- Internal Client Testing
- Network Testing
- Application Testing
- Production Migration
- Implementation

Other Government Departments

October 2003

DFAIT Import Permit Process

- ✓ **Process implemented with ACROSS to allow clients to transmit releases requests for importation's with DFAIT import permits**
 - ◆ **Permit transmitted to ACROSS**
 - ◆ **Customs Officer validates permits and releases goods**
 - ◆ **DFAIT receives EDI notice**

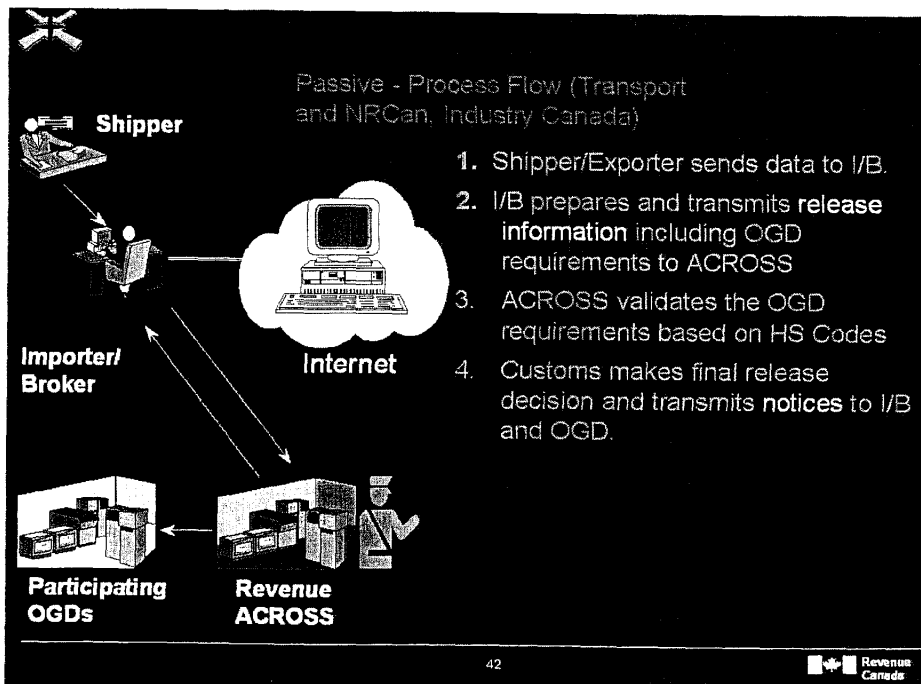

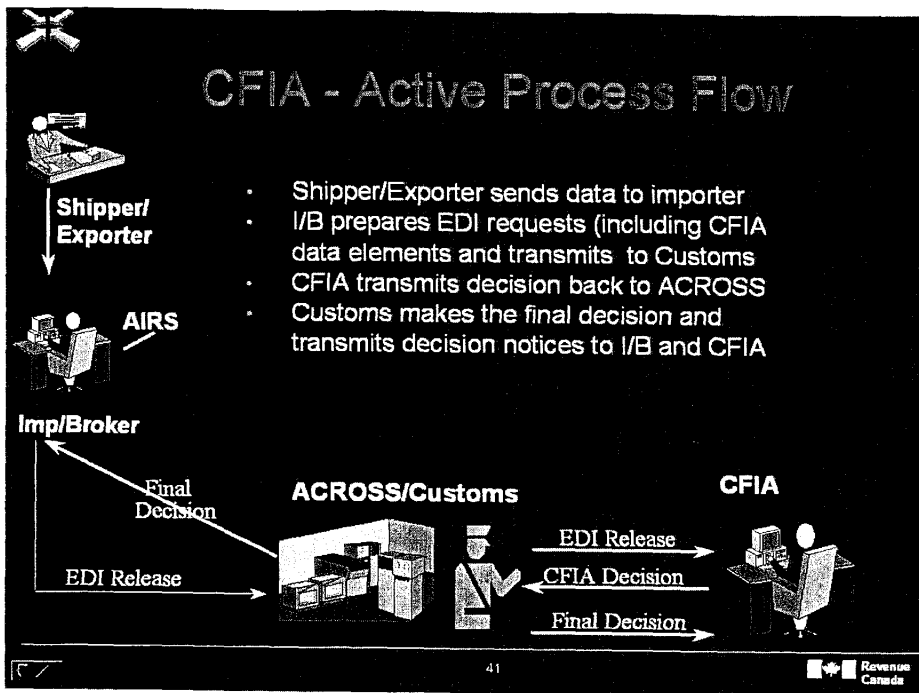

39

Increase OGD participation

- ◆ **Working in partnership with OGDs and clients to develop and implement re-engineered processes**
- ◆ **Evaluating technical and legislative changes/impacts**
- ◆ **Focus on harmonization of data elements using OGD Service Option with generic fields.**
- ◆ **Building interface between ACROSS and OGDs**
- ◆ **Testing with clients and OGDs**
- ◆ **Pilot implementation - phased-in approach**
- ◆ **National implementation**

40

Client Benefits

- ◆ Opportunity to increase EDI volumes (Preferred Service Standards for EDI)
- ◆ Consistent treatment of Shipments with OGD requirements - streamlining release process -
- ◆ Opportunity to eliminate sub-agents to present paper at customs offices.
- ◆ Overall reduction in processing costs

43

Future Direction

- ◆ Customs Action Plan –
 - ◆ Customs Self-Assessment (CSA/FAST)
 - ◆ G-7 one step initiative
 - ◆ Assess the future direction for OGD interfaces
 - ◆ Continue the dialogue between Canada and the United States

44

加拿大通關自動化系統架構之簡報資料

Chinese Taipei Delegation Briefing Customs Systems

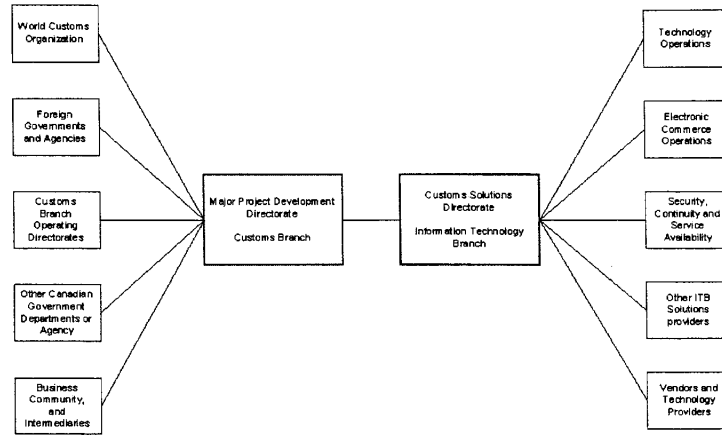

December 2003

Canada Customs and Revenue Agency

Organizational Context

→ Customs Action Plan

- Early 2000
- Comprehensive plan for modernization of the Customs Systems including provision for establishment of a new technology platform
- Some initiatives are partnerships of CCRA and CIC

→ Shared Border Accord

- Post Sept 11, Canada / US joint initiatives to strengthen border security
- Harmonized programs and aggressive development timelines
- Results in more advanced reporting, risk analysis, communication and data sharing
- Interagency cooperation involving Customs and Immigration authorities in both countries

→ Information Technology Branch Impacts

- Development staff increased from 150 to 300
- Investments made to ensure high availability of Customs Systems
- Increased demands for connecting officers in remote locations and communication links to other entities such as CIC and US Customs and airlines

Customs Systems Technologies

- **Mainframe Systems**
 - Mainly commercial systems
 - CICS, Cobol, DB2, IDMS
- **Distributed**
 - Variety of Client/Server technologies
 - Travelers, Postal etc..
- **Integrated Customs Systems (ICS)**
 - Java, DB2 and web presentation layer
 - Currently on Websphere and moving to new enterprise standard, Web Logic
 - Part of the Customs Action Plan
 - To host most new development of Customs Systems and will be the base for re-engineering existing systems
- **Customs Management Reporting System**
 - Implemented using new enterprise standard tools – Cognos
 - Web presentation layer

Customs Systems Key Initiatives

- **Commercial Systems**
 - Customs Self Assessment
 - G7 and One Step
 - Marine in Transit
 - Mandatory EDI and Risk Scoring
- **Traveler Systems**
 - Canpass-Air using iris biometric, Global Enrolment, Global Query, Nexus-Air
 - Nexus-Highway using license plate and proximity card readers
 - API/PNR using airline data on arriving passengers
 - Integrated Primary Inspection Line using new passport readers
- **Integrated Customs Systems (ICS)**
 - Java, DB2 and web presentation layer now established
 - Key initiatives have been deployed on this platform including AMPS, IPIL, Canpass-Air, API/PNR
 - Web presentation is very flexible to deploy
- **Customs Management Reporting System**
 - G11 replacement
 - Reports for all major new initiatives

Customs Electronic Commerce Overview

December 2003

CCRA  ADRC

Agenda

Page 2

- ☑ Customs Internet Gateway
- ☑ Volumetric information
- ☑ ACROSS Overview
- ☑ Customs Commercial Process
- ☑ Recent and Future developments

CCRA  ADRC

Customs Internet Gateway

Page 3

- ☑ Open Interface with a published specification
- ☑ Community of experts are setting direction.
CCRA facilitates connection
- ☑ Large corporations may choose a direct connect option at their own cost.
- ☑ Smaller players utilize VANs, X.25 or Internet options

CCRA  ADRC

Volumetrics

Page 4

- ☑ Currently the Customs Commercial System processes:
EDI entries 14,170,822

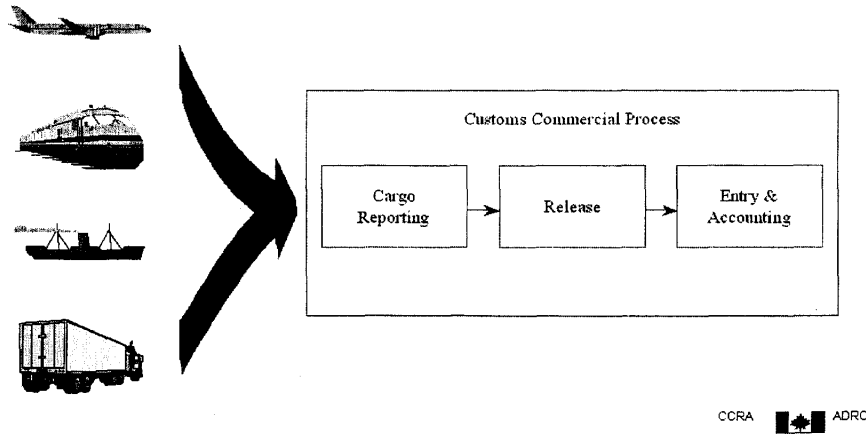

- ☑ The ACROSS application processes:
Releases 4,073,403, (36.56%)
EDI Releases 7,067,583 (63.44%)
Total Releases 11,140,986

CCRA  ADRC

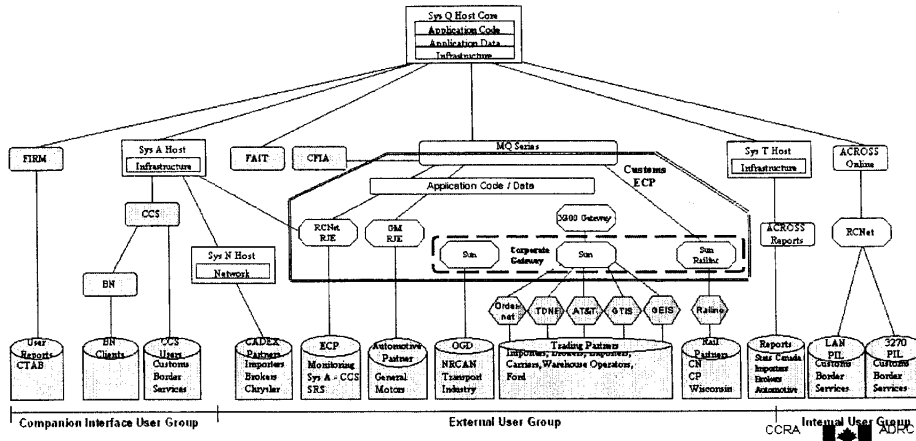

ACROSS Process

Customs Commercial Process

Logical Overview

Recent and Future Developments

- ☑ Expanding to electronic export data capture
- ☑ Mandatory EDI starting for Marine shipments April/2004
- ☑ Risk Assessment processes being developed to further advance the electronic intelligence capabilities. Links to other internal systems (ICES, AMPS, BN) as well as RCMP and Immigration data repositories

G7/WCO 共同資料項目調和發展之簡報資料

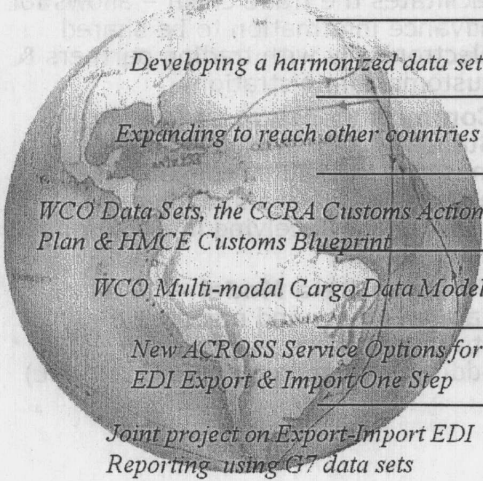

G7 Initiative

WCO Data Model and Electronic Messages for Customs

**Developments within CCRA and the WCO
on harmonized data elements for commercial
shipments**

Presentation to
Chinese Taipei Customs
December 2003

Topics

<i>Developing a harmonized data set</i>	G7 Initiative (Data Sets)
<i>Expanding to reach other countries</i>	WCO Data Model Working Group
<i>WCO Data Sets, the CCRA Customs Action Plan & HMCE Customs Blueprint</i>	Customs Action Plan/ Customs Blueprint
<i>WCO Multi-modal Cargo Data Model</i>	AGI & EDI Cargo Reporting
<i>New ACROSS Service Options for EDI Export & Import One Step</i>	G7 Service Options Import & Export
<i>Joint project on Export-Import EDI Reporting using G7 data sets</i>	Canada - UK G7 Prototype

WCO
Data Model
Working Group

G7 Initiative

WCO Data Model Working Group

- ✓ G7 Data Sets/Messages adopted as version 1 of WCO Data Model
- ✓ WCO Data Model Working Group set up to continue work started under G7 Initiative
- ✓ Data Compatibility
- ✓ Common Protocol (EDIFACT)
- ✓ Easy expansion from Import to Export
- ✓ Quicker deployment in other countries

- G7 Data Sets finalized and handed over to WCO for maintenance and promotion – December 2001
- Canada/UK represented at WCO Data Model Working Group:
 - Assist other WCO customs administrations in identifying data requirements & understanding WCO Data Model
 - Expand data model to include OGD requirements
 - Explore new technology standards (XML)
 - Business Process Modeling with industry

CCRA - G7 INITIATIVE

5

WCO
Data Model
Working Group

G7 Initiative

Security of Shipments

- ✓ WCO Data Model contains CSI data elements
- ✓ Marine Security identified as high priority
- ✓ WCO Security Task Force identified 27 data elements from Data Set as "key" for assessing risk

- Security agenda became a focal point
- Impact of 9/11 on international goods movement
- Supply Chain security:
 - CSI
 - CTPAT
 - WCO Security Task Force
- Implication for other transport modes
 - Advance Commercial Information (CCRA)

CCRA - G7 INITIATIVE

6

**Customs
Action Plan**

G7 Initiative

CCRA - Customs Action Plan

- ✓ Data Harmonization/WCO Data Model reflected in future EDI Development plans
- ✓ Partnership with ACI Initiative to introduce G7/WCO Data Set & EDIFACT messages for ACI Cargo reporting
- ✓ Enhanced risk assessment using EDI data

- G7 Initiative is a cornerstone of CCRA's plans to engineer the next generation of EDI services for traders
- Phases Implementation to coordinate with implementation of new services options, other CAP Initiatives
- Expand EDI services to eliminate paper reporting
- Export Declarations
- Primary Cargo Reporting (all modes)
- Secondary Cargo Reporting (Deconsolidations, Remanifests)

CCRA - G7 INITIATIVE

7

G7 BUNDLE

COMMON DATA SETS & ELECTRONIC MESSAGES

CCRA - G7 INITIATIVE

8

G7 Initiative ACI & EDI Cargo Reporting

- Re-engineering Cargo reporting process under the **Advance Commercial Information Initiative (ACI)**
 - Mandatory electronic reporting
 - Advance reporting timeframes
- Phased in across all modes and function:
 - Marine - April 2004
 - other modes - 2005/2006
- Electronic messages will be available using G7/WCO data set and EDIFACT message protocol

CCRA - G7 INITIATIVE

9

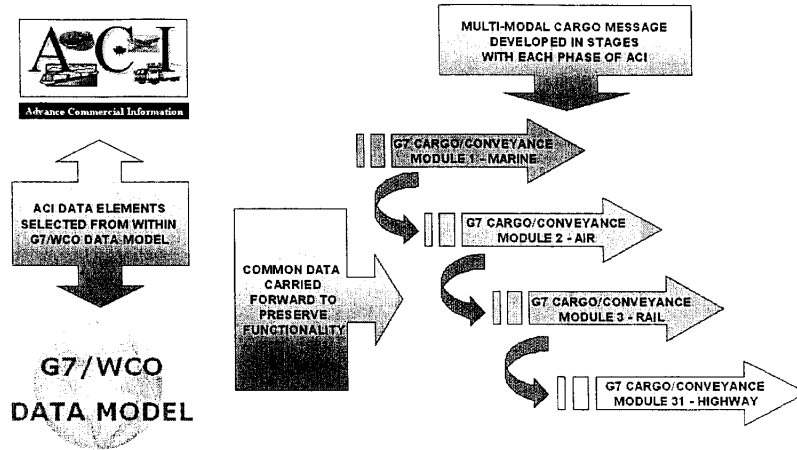

MULTI-MODAL CARGO DATA MODEL

- Standardize transport data elements for all 4 modes of transport (marine, air, rail, highway)
- Multi-modal Message Structure – Same message structure for all cargo reporting functions:
 - Primary Cargo reporting (all modes)
 - Supplementary Reporting & Empty Containers (Marine, supports 24 Hour Rule)
 - Secondary Cargo Reporting (Remans, Decons)
- Common message protocol:
 - EDIFACT CUSCAR (Cargo) and CUSREP (Conveyance)

CCRA - G7 INITIATIVE

10

G7/WCO Data Model & ACI Initiative

CCRA - G7 INITIATIVE

11

G7 One Step

G7 Initiative

New G7 Import Service Option

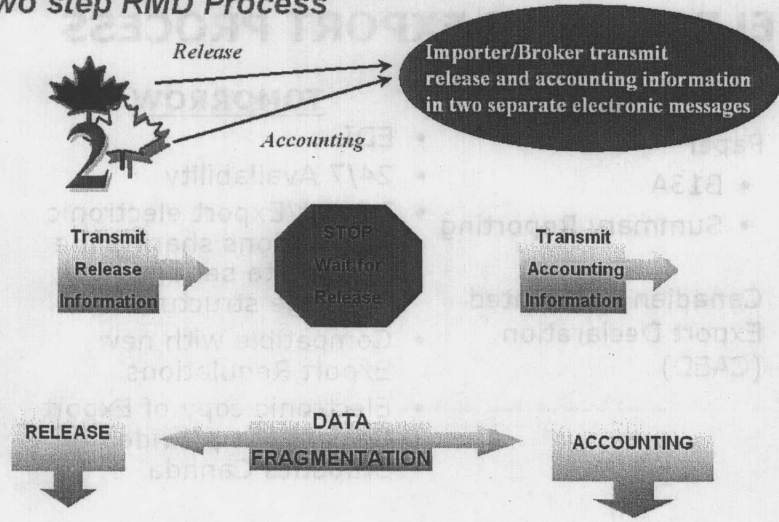

What is Import One Step?

- A new Customs Action Plan initiative to provide Importer/Broker the opportunity to transmit a single electronic message containing both release and accounting information prior to the release of goods
- Existing deferred payment features available under the current Two Step process are retained
- Existing AMPS penalties continue to be applicable to One Step shipments
- No new AMPS penalties being introduced for One Step process
- New Import One Step process is known as Release on Full Documentation (RFD)

CCRA - G7 INITIATIVE

12

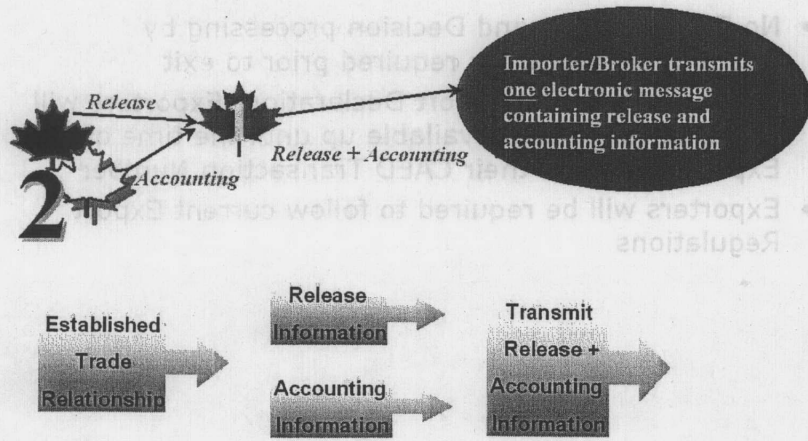

Current two step RMD Process

CCRA - G7 INITIATIVE

13

New Import One-Step Release on Full Documentation Process

CCRA - G7 INITIATIVE

14

G7 INITIATIVE ELECTRONIC EXPORT PROCESS

TODAY

- Paper
 - B13A
 - Summary Reporting
- Canadian Automated Export Declaration (CAED)

TOMORROW

- EDI
- 24/7 Availability
- Import/Export electronic declarations sharing the same data set and message structure
- Compatible with new Export Regulations
- Electronic copy of Export Declaration provided to Statistics Canada

G7 INITIATIVE G7 ELECTRONIC EXPORT

- No Export review and Decision processing by Customs Inspectors is required prior to exit
- To display proof of Export Declaration, Exporters will be required to have available up until the time of Export, a copy of their CAED Transaction Number
- Exporters will be required to follow current Export Regulations

CCRA - G7 INITIATIVE

17

Canada – UK G7 Prototype

- The G7 customs administrations agreed to launch a pilot project to test the data sets and common electronic processes.
- This Project will coincide with Canadian and UK Customs implementation of G7 import and export data sets in 2003
- Participants are required to use the UCR
- The Prototype demonstrates to trade and WCO members our commitment to the global implementation of the standardized data sets.

CCRA - G7 INITIATIVE

18

Canada – UK G7 Prototype Participation

- The Prototype is not a “throw away” system. Each administration is committed to maintaining the messages and data sets after the evaluation period.
- Not restricted to Canada-UK Trade (or trade involving G7 countries)
- Includes Intra-company trade and external trade partners
- Some companies have committed – more are welcome

CCRA - G7 INITIATIVE

19

Canada – UK G7 Prototype Evaluation

- Opportunity for traders to influence the outcomes and evaluation
- Evaluation exercise will include both customs administrations and clients
- Participants will allow customs to exchange data to compare results
- Joint evaluation to include cost benefits to customs and participants to be evaluated

CCRA - G7 INITIATIVE

台加兩國海關雙方工作備忘錄

CT – CCRA Data Workshop

Tasks for the team:

- CCRA will reformat the file to further develop Import Data set.
- CCRA and CT will verify questions regarding data and business requirements noted in the document.
- CT will indicate what the conditions are for all of the conditional data elements.
- CT will provide all definitions for their data elements if different from the WCO definitions.
- CCRA will provide a draft data model based on these inputs.
- CCRA will prepare draft export data set based on the work completed over the last few days.
- Process will be repeated for Export and Cargo.
- We will attempt to do as much work as possible using e-mail and conference.
- CCRA will provide electronic copies of our Participants Requirements for WCO Import and Export Service Options. These documents include EDIFACT Maps and Business Rules for our clients.
- CCRA will provide information on the Unique Consignment Reference number.
- CCRA will provide information on an ongoing basis regarding the progress of the UK Canada G7 Pilot Project.
- CT will inform CCRA on an ongoing basis on the status of their data harmonization efforts and the AU-CT Pilot Project.

我方提出調和 WCO 共同資料項目之相關問題

Queries Regarding the WCO Data set Comparison:

1. In terms of importation of cars, do you require declarants to declare vehicle identification number in Customs declarations? If so, Which WCO data element is the vehicle identification number catered for ?
2. By our harmonization of WCO data set, some data elements in our export/import declaration are not found in EX1-WCO/IM1-WCO. How will Canadian Customs deal with this problem?
3. According to our WCO data set Comparison (IM1/EX1), there are several data elements catered for one data element in IM1/EX1. How does the Canadian Customs deal with this problem, when there are not fit code to use ?
4. Do you have data elements for insurance in your import and export declaration forms? If yes, Which WCO data element is catered for ?
5. According to the Table of Contents of IM1-WCO, there are data elements for each item's manufacturer (G09); however, there are no such data elements in the Table of Contents of EX1-WCO. Since one country's export declaration would be another country's import declaration, and vice versa, the above-mentioned situation seems to be unreasonable. How is your opinion in this regard?
6. Currently, there are separate columns for "description of goods", "brand names" and "specifications" in Taiwan's Customs import/export declaration forms respectively. However, when we tried to harmonize the data elements of our Customs declaration forms according to WCO Data Set Version 1.0, we couldn't find any applicable data elements or code qualifiers for "brand names" and "specifications" in this WCO Data Set.

Would you please tell us if Canadian Customs Service is faced with the same situation, and does your Customs require declarants to declare "brand names" and "specifications" in the Customs declaration forms? And what's your advice to us in this regard?

7. After checking the description and definition in WCO Data Set Version

1.0, some data elements seem to be applicable to our declaration forms, but we still could not adopt them due to lack of suitable code qualifier.

Please kindly tell us how to apply to WCO for new code qualifiers. How long does it usually take? And are there any WCO members applying for new code qualifiers?

8. Since the description and definition in WCO Data Set Version 1.0 are only in English, it is not easy for non-English-speaking people to fully understand their meaning. What is your suggestion?
9. Please tell us how Canadian Customs Service or other Customs administrations dealt with the difficulties in harmonizing the data elements of their Customs declaration forms.
10. Please tell us some other suggestions in terms of harmonizing data set based on your experience.

加方針對我方WCO共同資料項目相關問題之回答

A1 – No, Canada only requires VINs in the case of exported vehicles. The U.S. is currently in the process of including data element 7402 (Identity Number) in the Import Data Set version 2 which may be able to include this information.

A2 – The WCO has rules on adding data elements but with version 2 changes will be made. There is nothing that we have seen in this session to suggest that CT requirements are not in line with the planned data sets.

A3 - The MIG provides the possible codes, however if a suitable code is not found, use the UN/EDIFACT codes whenever possible. National codes may be used if necessary.

A4 – No, Canada Customs uses ‘Invoice on Demand’. Invoice on Demand means that verification of Customs value is done on a post-audit basis. (We do not ask for this type of invoice information on the declaration but if we require the information, we will audit the importer.)

A5 – Due to the fact that there will always be extra information required for import, due to the need to collect information for the collection of duties and taxes, there may not for a long time, if ever, be a totally seamless import/export data exchange.

(Eric will confirm whether or not that data element will be included in version 2, however, it is not required by Canada.)

A6 - The data element, ‘Description of goods’ is usually used to cover these requirements.

(Note: Any free text field makes targetting or risk assessment more difficult due to different spellings, abbreviations, etc.)

No, Canada Customs does not ask for Brand names or for ‘specifications’ on the import declaration. It is left to the Customs Inspectors to check for this information.

A7 – If you use the EDIFACT codes there should be no problems.

A8 – A good question for CEFACT.

A9 – The main difficulty in the beginning was ensuring that we knew what needed to be achieved once it became apparent that total harmonization was not possible, due to the individual needs of countries.

Within CCRA, the main hurdle is to ensure that all our program and project areas and staff understand the benefits of using this standardized model (WCO Model).

Externally, it is the delay in getting our traders and other countries to implement the WCO Data Model. However, by offering new service options and re-engineering our processes to facilitate trade while still ensuring our requirements for security and collection of revenues are being met, we are able to convince our clients that the WCO is a good option to do business with us.

Data Element Review Principles

A. Guiding Principles regarding Data Elements

When re-engineering the customs reporting procedures a number of guiding principles should be applied. All data elements should be rationalized to determine their application, business, and processing requirements. The following basic principles should be followed for all data elements.

A.1 Eliminate - Ask the questions;

- Is the data element absolutely needed for Customs processing of the declarations/documents?
- Is the data element needed for enforcement purposes?
- Is the data element needed for risk management purposes?
- Is the data element needed for valuation purposes?
- Is the data element needed for Customs Inspectors decision on action?
- Is the data element needed for Other Government Agency control?
- Can the data element be acquired from another source or document?

A.2 Simplify

- Re-engineer the processes to simply the reporting requirements by the traders.
- Do not ask traders for detailed reference information that is already know by Customs. (i.e. quotas, license numbers, etc.)
- Work with Other Government Agencies to re-engineer their process to simply the customs reporting (i.e. make use of the HS number for determination of customs valuation).

A.3 Codify

- Wherever possible codify data element requirements, in particular with respect to customs procedures and special valuation requirements.
- Within new message designs make use of UN/EDIFACT qualifier codes to define data elements.
