

# Presentation about Import

Sjaak Blaak  
Inspector

Nederlandse Voedsel- en  
Warenautoriteit  
*Ministerie van Economische Zaken*

**Contents:**

- Background information on Import control
- EU legislation
- Import control system in the Netherlands

# Background information on Import control

Europe consists 28 member states

Within the EU a single market is in place

There is free movement of persons, goods and money.

One of the tools the EU applies is developing legislation. EU law - which has equal force with national law - confers rights and obligations on the authorities in each Member State, as well as individuals and businesses

# Background information on Import control

The competent authorities in each Member State are responsible for implementing EU legislation in national law and enforcing it correctly,

There is specific legislation in place to ensure food and consumer safety at the moment of entry and import into the EU

# Background information on Import control

All member states are responsible for checking:

Production

Import

Processing

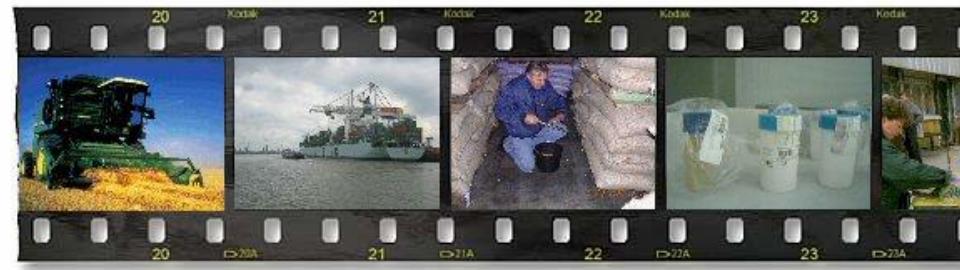

Export

# Background information on Import control

**Import** is considered to include all consignments entering the EU en originating from non-EU member states.

# EU Regulation: Type of controls

Import control offers three different backgrounds:

1. National monitoring plan

2. Harmonised monitoring plan

3. EU emergency measures

# EU Regulation: Type of controls

Article 15.1 882/2004

National  
control plan

The competent authority shall carry out regular official controls on feed and food of non-animal origin, imported into the EU.

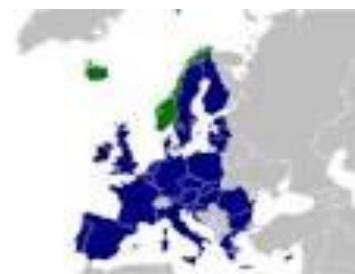

It shall organise these controls on the basis of the multi-annual **national control plan** drawn up in accordance with Articles 41 to 43 and in the light of potential risks. The controls shall cover all aspects of feed and food law.

# EU Regulation: Type of controls

## Harmonised monitoring plan

A list of feed and food of non-animal origin that is, on the basis of known or emerging risk, to be subject to an increased level of official controls at the point of entry into territories of the EU.

Emergency measures for food and feed of Community origin or imported from a third country

# Harmonised and harmonised with certificate country of origin

Prior notification to the competent authority is needed.

## ANNEX

Annexes I and II to Regulation (EC) No 669/2009 are amended as follows:

1. Annex I is amended as follows:

(a) Part A is replaced by the following:

'(A) Feed and food of non-animal origin subject to an increased level of official controls at the designated point of entry

Feed and food (intended use)	CN code <sup>(1)</sup>	Country of origin	Hazard	Frequency of physical and identity checks (%)
Groundnuts (peanuts) and derived products (feed and food)	1202 10 90; 1202 20 00; 2008 11	Argentina	Aflatoxins	10
Groundnuts (peanuts) and derived products (feed and food)	1202 10 90; 1202 20 00; 2008 11	Brazil	Aflatoxins	50
Trace elements (feed and food) <sup>(2)</sup>	2817 00 00; 2820; 2821; 2825 50 00; 2833 25 00; 2833 29 20; 2833 29 80; 2836 99	China	Cadmium and lead	50
Groundnuts (peanuts) and derived products (feed and food), in particular peanut butter (food)	1202 10 90; 1202 20 00; 2008 11	Ghana	Aflatoxins	50
Spices (food): — <i>Capsicum</i> spp. (dried fruits thereof, whole or ground, including chillies, chilli powder, cayenne and paprika) — <i>Myristica fragrans</i> (nutmeg) — <i>Zingiber officinale</i> (ginger) — <i>Curcuma longa</i> (turmeric)	0904 20; 0908 10 00; 0908 20 00; 0910 10 00; 0910 30 00	India	Aflatoxins	50
Groundnuts (peanuts) and derived products (feed and food)	1202 10 90; 1202 20 00; 2008 11	India	Aflatoxins	10
Melon (egusi) seeds and derived products <sup>(3)</sup> (food)	ex 1207 99	Nigeria	Aflatoxins	50

# Official control:

Article 2 of the EU regulation 882/2004

'official control' means any form of control that the competent authority or the Community performs for the verification of compliance with feed and food law, animal health and animal welfare rules;

# Whom: Skilled people, suitable equipment

## 882/2004

### CHAPTER III

#### TRAINING OF CONTROL STAFF

##### *Article 51*

##### **Training of control staff**

1. The Commission may organise training courses for the staff of the competent authorities of Member States responsible for the official controls referred to in this Regulation. These training courses shall serve to develop a harmonised approach to official controls in Member States. They may include in particular training on:

- (a) Community feed and food law and animal health and animal welfare rules;
- (b) control methods and techniques, such as the auditing of systems that operators design to comply with feed and food law, animal health and animal welfare rules;
- (c) controls to be carried out on goods imported into the Community;
- (d) feed and food production, processing and marketing methods and techniques.

# Official control

**'official control':** any form of control that the Community performs for the verification of documents required under feed and food law, examination of commercial animal welfare documents and, where appropriate, of documents required under feed or food law that are accompanying the consignment

**'documentary check':** a visual inspection to ensure that certificates or other documents accompanying the consignment, namely and with the labelling and the content, are correct and that the temperature, the sampling for analysis and laboratory testing and any other check necessary to verify compliance with feed or food law

**'identity check':** a visual inspection to ensure that the means of transport, on the packaging, namely and with the labelling and the content, are correct and that the temperature, the sampling for analysis and laboratory testing and any other check necessary to verify compliance with feed or food law

**'physical check':** a check on the feed or food itself which may include a visual inspection to ensure that the packaging, namely and with the labelling and the content, are correct and that the temperature, the sampling for analysis and laboratory testing and any other check necessary to verify compliance with feed or food law

# Release for free circulation

If all checks are finished and the results are conform

The competent authority sign the CED

The competent authority handover the CED to the food business operator.

The food business operator go with the signed CED to the customs.

Customs release the shipment for free circulation in the EU

# Overview cooperation customs.

- Two moments of cooperation:

National control plan:

- selection from custom manifest

Harmonized & harmonized with certificate:

- Customs Check of all controls are done at the moment of import declaration
