TEL Strategic Action Plan 2016-2020
Planning and Prioritization

Updated on 17 October 2019

TEL Strategic Action Plan 2016-2020: Planning and Prioritization

1. Develop and Support ICT Innovation

The TEL WG will continue to promote infrastructure investment, connectivity and support the productive and innovative use of ICTs in line with technological trends. It will champion strategic opportunities for new ICTs and services, and will sponsor leadership on ICTs by bringing together ICT leaders from among stakeholder groups to share knowledge and form collaborative partnerships. TEL WG will explore ways ICTs can address emerging challenges such as disaster risk reduction and management, social responsibility, and help foster resilient, diverse, inclusive, and prosperous economies.

No.	Objectives	Actions	DSG	LSG	SPSG	Cross-fora collaboration	Remarks
1.1	Promote innovation and value creation in ICTs	a) Strengthen cooperation in the field of research into new business models based on innovative use of ICTs.	<div style="background-color: #ff00ff; padding: 5px;">1) Industry Roundtable: ICT Innovation [2016-2020]</div> <div style="background-color: #00ff00; padding: 5px;">2) DSG Innovation Roundtable "How to facilitate the growth of new technologies (among them IoT, Big Data, AI, etc.) - Chile"</div>		x		<div style="border: 1px solid black; padding: 2px; display: inline-block;">DSG</div> 1) Economies to continue working on the Roundtable
