

**Agenda Item 9.1.2.10:**

**Project proposal: Revision**

*R 149 Non-invasive automated sphygmomanometers*

## Annex C.2 to OIML B 6-1: Proposal for a new project

	Proposal for a new project				
	Within:	TC	18	SC	1
	Date:	30.09.2021			
Proposer(s) (Add line if required):					
Name:	Country:	Organisation:			
Proposed convener(s)*:					
Name: Can Wang	Country: P.R. China	Organisation: SIMT			
Type of proposed publication:	<input type="checkbox"/> New	<input checked="" type="checkbox"/> Revised			
<input checked="" type="checkbox"/> Recommendation	<input type="checkbox"/> Document	<input type="checkbox"/> Basic	<input type="checkbox"/> Vocabulary	<input type="checkbox"/> Guide	
Title of proposed publication:					
R 149 <i>Non-invasive automated sphygmomanometers</i>					
Terms of reference of the project, including detailed time frame in accordance with the provisions specified in B 6-1, 6.2:					
<p><b>Scope:</b> The OIML Task Group on medical devices in legal metrology requested that more guidance on the verification of sphygmomanometers be provided. The main aim of this project is to add a new part to the Recommendation for this purpose.</p> <p>During the recent project TC 18/SC 1/p 2, which resulted in the publication of R 149:2020, a number of comments were raised which were not taken into account in order to complete the project. It is proposed that these also be considered during this project.</p> <p><b>Expected time frame:</b></p> <p>PG area set-up: 15.01.2022</p> <p>Members participation confirmation: 01.05.2022</p> <p>1WD: 01.08.2022</p> <p>1CD: 01.02.2023</p>					
Why should the OIML develop this publication?					
A clear need for more guidance on verification and inspection has been identified by members of the OIML, especially, but not exclusively, CEEMS. This project would deal with this need and further update the Recommendation from a technical point of view.					
Countries/Economies known to, or intending to apply this publication, if applicable:					
Relevant associated OIML publications:					
R 149:2020 <i>Non-invasive non-automated sphygmomanometers</i>					
List of appropriate liaisons and their work related to this proposed project (include supporting documentation as necessary and reference it here):					
ISO/TC 121/SC 3/JWG 7: Non-invasive blood pressure monitoring equipment					

\* As the CIML Member(s) of the Country(ies) holding the convenership of this project, I/we recognise the importance of TC/SC/PG secretariat/convenership work and will make available the resources to ensure the work on the publication is completed in a timely and professional manner in accordance with the provisions in OIML B 6-1 and the detailed time frame as part of this proposal.
