8a)

Evaluation of Progress: By the end of 2025, assess the progress made by member economies towards successfully promoting and, where applicable, implementing policies for wider adoption of Global Data Standards and interoperable digital technologies to enhance production-related technologies, supply chain traceability, accessible innovative financial technologies and digital documentation, and identify areas which should be prioritized for further work.

12d)

Individual Action:

1. By 2025, economies are encouraged to identify 1994 levels of tariffs and trade facilitation of agriculture and food products, and investment in food systems to establish a baseline for individual reviews against the Bogor Goal.

19c) *In progress*

Collective Action:

Economies will conduct a session in 2025 to progress the implementation plan and conduct a mid-term review of the Food Security Roadmap Towards 2030.

17e) *In progress*

17e) Provide capacity building and best practice sharing workshops to support member economies' individual and collective efforts to align with the UN Sustainable Development Goals 12.3 "by 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses," with specific indicators based on each economy's respective situation such as measured by the UN/FAO Food Waste Index (FWI) or other appropriate index. And promote public-private investment in infrastructure and cold chain to reduce the current levels of food loss and waste and review progress in this area by 2025.

18b) *In progress*

Evaluation of Progress:

1. By 2025, a review of the PPFS TOR as specified by this target has been completed; and
2. By 2025, a list of industry POCs for finding agricultural industry representatives has been created.

Evaluation of Progress:

1. The assessment of complete action and the review of proposed actions in the implementation plan has been conducted by 2025.
2. The Food Security Roadmap Towards 2030 has been reviewed by 2030.
