

Domestic and international dignitaries attending the '100th Anniversary International Scientific Congress & Dental Equipment Exhibition of KDA' are celebrating the historic 100th anniversary of the association by cutting the ribbon at the opening ceremony.

100th Anniversary Academic Conference and Exhibition of KDA Opens!

6200 Korean Dentists Register, Delegation of Presidents from 10 Countries Visit

World-Class Korean Speakers' Lectures with AI Interpretation, Exhibition by 200 Companies

The Korean Dental Association(KDA)'s 100th Anniversary International Congress and Dental Equipment Exhibition is being held at Songdo Convensia in Incheon from November 11th to 13th.

KDA was founded on June 9th, 1925, and carries on the spirit of Korea's first dentist, Dr. Ham Seok-tae, and other esteemed senior dentists.

Over 6200 Korean dentists have registered for this commemorative event, with attendees from abroad including Dr. Greg Chadwick, President of the FDI(World Dental Federation), and delegations from 10 countries.

At 11:00 AM on the 11th, the opening ceremony took place in front of the exhibition hall, with VIPs such as Dr. Park Tae-geun, President of KDA, and Organizing Committee

Chairman Kang Chung-kyu in attendance.

At 5:00 PM, the main 100th anniversary celebration of KDA was held. Approximately 600 opinion leaders from the Korean dental community, including government officials, members of the National Assembly, and representatives from various countries, attended the grand ceremony and banquet. The event featured a video showcasing the 100-year history of KDA and an orchestra performance.

On the 12th and 13th, the academic conference lectures and equipment exhibition will be in full swing. The academic conference will feature 100 of Korea's most popular and renowned speakers, delivering clinical lectures on the latest topics across all areas of dental practice, including implants, prosthodontics, orthodontics,

President Park Tae-geun of the KDA is posing for a commemorative photo with representatives from various countries who are participating from abroad.

periodontics, endodontics, and digital dentistry. To accommodate international attendees, AI interpretation will be provided in designated lecture halls, with particularly popular topics scheduled in these rooms.

The equipment exhibition will showcase 200 of Korea's leading dental equipment companies, occupying a large exhibition space with 800 booths. Attendees can explore Korea's excellent

implants, dental units, CBCT scanners, and other cutting-edge equipment. Detailed product information will be available on-site, and hands-on workshops will also be offered.

For those seeking a break and relaxation, the Premier Ballroom C is the place to be. It will host an art exhibition featuring works by Korean dentists and the '100 History Cafe' an exhibition dedicated to the 100-year history of KDA.

100 Years of the KDA: The World Recognizes the Strength of Korean Dentists!

Enjoy the Latest Clinical Lectures and Large-Scale Equipment Exhibition to Your Heart's Content
Honoring the Spirit of Ham Seok-tae, Korea's First Dentist, Charting a New 100 Years

Interview President Park Tae-geun

"Welcome to the Korean Dental Association(KDA)'s 100th Anniversary International Congress and Dental Equipment Exhibition. I hope you all have a wonderful and festive time experiencing the high standards of Korean dentistry and the dental industry, as well as enjoying the charm and flavors of Incheon, the city of open ports."

Dr. Taegeun Park, President of KDA extended a warm welcome to the delegation of presidents from 18 countries, including Dr. Greg Chadwick, President of the FDI, and Mr. Enzo Bondioni, Executive Director of the FDI. He expressed his honor in being able to introduce the

long history and developed status of the Korean dental community to dentists from overseas.

President Park stated, "We owe our present to the esteemed senior dentists of 100 years ago. KDA's 100th anniversary celebration is a forum to reflect on the significance of this history and to discuss the blueprint for our future."

President Park stated, "The clinical skills of Korean dentists are world-class, and the Korean dental industry is also globally recognized. In particular, Korea's implant industry, which has garnered international attention, is led by dentist-turned-CEOs who spearhead product development

and continuously introduce high-quality products. Through the high-caliber academic lectures and equipment exhibition, attendees can experience Korea's advanced dentistry and dental industry."

President Park added, "KDA collaborates with dental

associations in various countries to promote mutual development. For the international visitors who have come to Songdo, we have prepared AI-interpreted lectures, international policy forums, and various cultural events. I hope they enjoy the latest dental knowledge from Korean scholars, as well as the diverse sights and culinary delights that Korea has to offer."

President Park concluded, "Incheon, where Songdo is located, is the city of open ports where Korea first began to embrace foreign culture. Korea's first dental clinic also opened in Incheon. I hope everyone enjoys K-dentistry in this historically rich city and creates many memorable experiences."

Welcome to Fellow Dentists from Around the World!

Pride in the Magical Development of the Korean Dental Industry Over the Past 100 Years
Enjoy High-Caliber Lectures, Equipment, and Diverse Cultural Events

Interview Organizing Committee Chairman Kang Chung-kyu

"I extend my gratitude and welcome to our fellow dentists from around the world who have traveled from afar to celebrate the 100-year history of the Korean Dental Association. The Korean Dental Association has made every effort to ensure your comfortable lecture attendance and exhibition viewing. I hope you enjoy the diverse events over these three days."

Kang Chung-kyu, Chairman of the Organizing Committee for KDA 100th Anniversary Event(Kang Chung-kyu, Chairman of the Organizing Committee), stated, "Korean dentistry and the dental industry have achieved almost magical and

remarkable development over the past 100 years. This progress has been driven by the influx of talented individuals into the dental field, who have dedicated themselves to patient care and academic research. Now, Korean dentists are leading the global dental community. I hope that during your visit to Korea, you fully experience Korea's latest dentistry and cutting-edge dental industry."

In particular, AI-interpreted lecture halls will be available on both Saturday and Sunday for international dentists. These halls will feature lectures on topics that are universally appealing to

dentists, regardless of nationality. Additionally, a forum to share dental policies from around the world is planned, providing access to lectures on a wide range of subjects.

Additionally, there will be a 'Dental

Art Exhibition' where you can appreciate the artistic talents of Korean dentists, and a '100 History Cafe' showcasing the 100-year history of KDA. Furthermore, you can freely explore Korea's excellent dental equipment at the exhibition.

Chairman Kang Chung-kyu emphasized, "Above all, the greatest strength of Korean dentists is their warm hearts and dedication to patient care. I hope you have many opportunities to interact with the friendly Korean dentists at this event. Based on the strength of its members, KDA will strive to play an even greater role in the global dental community for the next 100 years."

International Attendees Enjoy K-Dentistry with AI Interpretation

Lecture by FDI President Greg Chadwick

NDA Forum on Dental Policies for Elderly Patients in 18 Countries

Latest Clinical Practices by Renowned Korean Speakers Featured Prominently

The Korean Dental Association's 100th Anniversary International Congress is operating AI-interpreted lecture halls to ensure that international attendees can comfortably listen to lectures. These halls feature a concentration of the latest clinical lectures by renowned speakers from Korea.

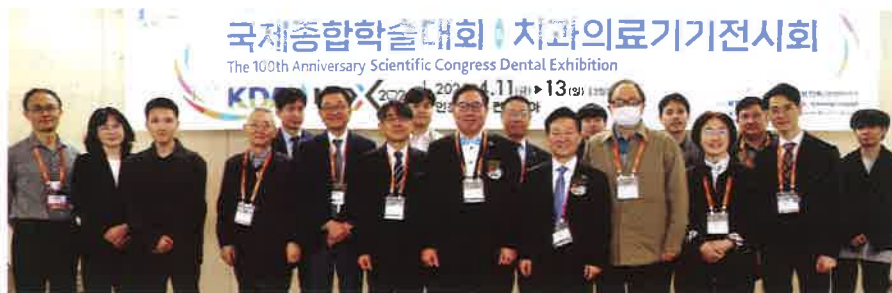

On the first day of the congress, the 11th, there was a session to reflect on the history of the Korean dental community and consider future directions for development. Policy lectures were also held, led by professors who guide Korean dental education, to share various ideas for the advancement of Korean dentistry and the Korean dental licensing examination system. Notably, Dr. Greg Chadwick, President of the World Dental Federation (FDI), delivered a lecture on the topic 'The International Association for Dental Education: Not an Option, but a Necessity and an Opportunity.'

From the lectures on the 12th onwards, attendees can go to the lecture halls where AI interpretation is provided. Interpretation will be available in lecture halls 204-205, 107-109, and

116-118. In lecture halls 204-205, notable lectures include 'Peri-implantitis - Long term clinical results and selection to overcome the limitation of surgical treatment' by Cheolwoong Jeong Director (Chundan Mir Dental Hospital) and 'Periodontal aspects on anterior regions' by Prof. Dong-Woon Lee (Wonkwang University).

In lecture halls 107-109, we recommend 'My vantage points after four decades in periodontal therapy' by Prof. Young Ku (Seoul National University) and 'Re-evaluation of periodontal surgery in the implant era: Periodontal surgery that a general practitioner can try' by Kyoung-man Min Director (Seoul Mai Dental Office). In lecture halls 116-118, we recommend 'Innovative Digital Solutions for Full Mouth Rehabilitation' by Prof. Chalmongkon Peampring (Faculty of Dentistry, Prince of Songkla University), 'Where are we with digital RPDs?' by Prof. Ji-Man Park (Seoul National University), and 'Key points for each step of endodontic treatment' by Seungho Baek Director (Baek & Heo Dental Clinic).

In particular, attendees interested in dental policies related to elderly patients in

Speakers and officials are taking a commemorative photo after the session hosted by the Health Policy Institute of KDA.

Vice Dean Guang Hong (Tohoku University) is giving a lecture on 'Prospects for Dental Education Cooperation in the Asia-Pacific Region,' and President Zhuoqun Yan (UPCERA) is speaking on 'Exploring Strategies for University-Industry Collaboration in Dentistry.'

various countries should pay attention to the NDA (National Dental Association) Forum, which will be held in lecture halls 306-307 from 4:00 PM. Representatives from 18 countries will present the current situation in their respective nations.

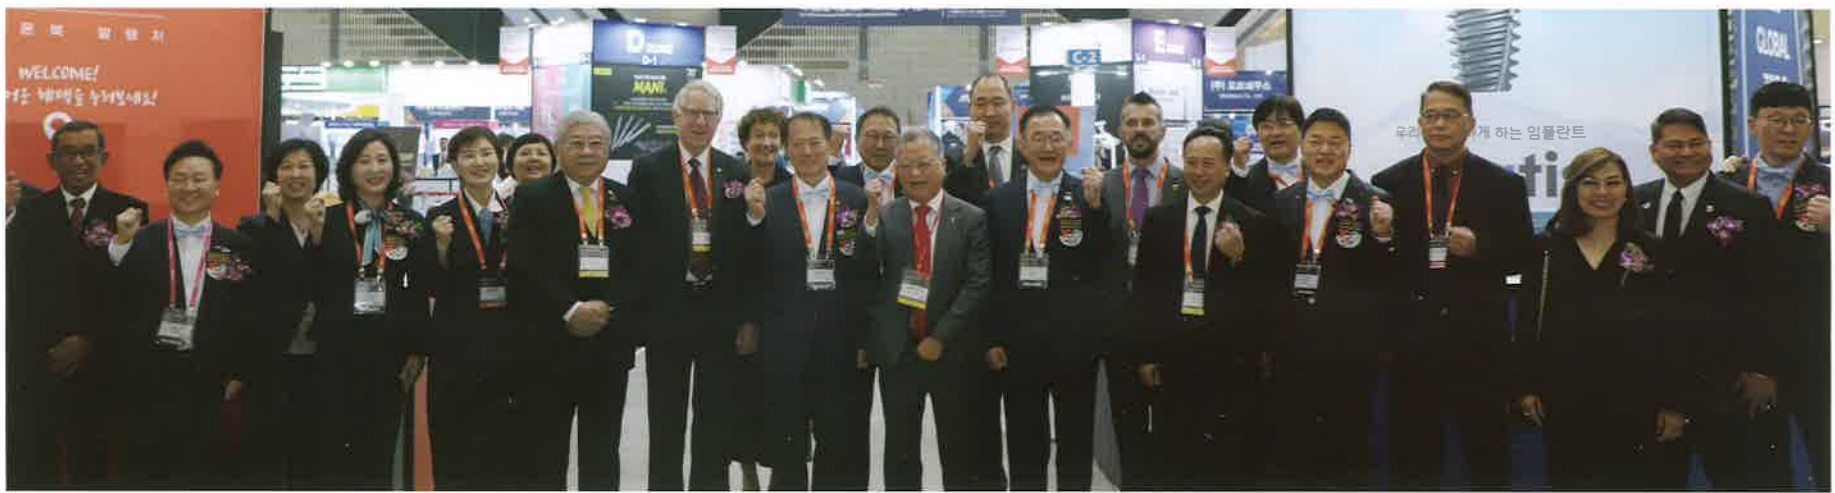

On the 13th, interpretation will be provided in the Premier Ballroom(A+B) and lecture halls 204-205 and 116-118.

In the Premier Ballroom, there

will be 'Factfulness: Something that We're Wrong about the Wisdom tooth' by Hyungmo Kim Director (Wise Wisdom tooth Oral Surgery Clinic). In lecture halls 204-205, there will be 'Paradigm Shift: GBR should be easier' by Jaeyoon Kim Director (Yeonsu Seoul Dental Clinic). In lecture halls 116-118, there will be 'Predictable 3D Building GBR using Tent Screw' by Pilseong Kim Lecturer (UCLA School of Dentistry), 'Immediate Implant Loading' by Ken Kim Prosthodontist (Army Dental Corps), and 'Updates on vital pulp therapy' by Prof. Kyung-San Min (Jeonbuk National University), all of which are expected to be engaging.

In addition to the lectures, attendees can visit the equipment exhibition where participating companies will offer mini-lectures and hands-on workshops on their products.

Domestic and international dignitaries who attended the opening ceremony are cheering together to show their support after touring the exhibition booths.

More Than Just Benefits: Exhibition Meets Festival

‘Jackpot Chance’ with 1 Billion KRW in Prizes Over Two Days (12th & 13th)
Abundant Attractions and Food, Including Events and a Stamp Tour

The Korean Dental Association's 100th Anniversary International Congress and Dental Equipment Exhibition (hereinafter, KDA 100th Anniversary Event) has opened with a spectacular start, and a 'mammoth-scale' exhibition is welcoming attendees.

Approximately 200 leading Korean dental companies are participating in this exhibition. In particular, with the participation of numerous companies, ranging from top-tier Korean companies that currently lead the global dental market to startups, the event is expected to be a meaningful opportunity to experience the current state of the Korean dental industry and to envision its future.

On the first day of the event, the 11th, the exhibition's tape-cutting ceremony and VIP tour served as the starting signal, and attendees who arrived early at Songdo Convensia began to

make their way to the exhibition hall, foreshadowing a lively atmosphere.

In particular, over the two days of the 12th and 13th, when large crowds are expected, prizes totaling over 1 billion KRW will be waiting for the lucky winners, befitting the scale of the event.

First, attendees who have completed pre-registration or on-site registration can receive a prize voucher if they win in the registration prize drawing, and then claim their prize at the respective booth.

The Korea Dental Medical Device Industry Association (hereinafter, KDIA), which is co-hosting this exhibition with KDA, and its Korea International Dental Exhibition Organizing Committee (hereinafter, KDX Organizing Committee) have prepared an unprecedented lineup of prizes, including a Lexus UX300h, dental

units, Dyson hair dryers, intraoral scanners, LG Styler, Zojirushi steam humidifiers, and luxury hotel dining vouchers. As such, they anticipate overwhelming success and participation throughout both days.

In addition to these prizes, the organizing committee is confident that the various events and special discount promotions prepared by each company will provide attendees with a highly satisfying level of benefits.

In addition to the prizes, food trucks will be operating within the exhibition hall during the event, and a professional Star Wars character cosplay team will be greeting visitors and taking photos with them, providing exciting attractions and food options.

This exhibition, jointly hosted by KDA and KDIA, is designed to promote the mutual development of dentistry and the dental industry, offering an even richer program and

A Lexus UX300h, the prize for the event giveaway.

benefits. It has been meticulously prepared to ensure satisfaction for both attendees and participating companies, serving as a platform for business networking across industry, academia, and research, as well as for the exchange of the latest technologies and academic knowledge.

Especially in celebration of the KDA's 100th anniversary, the exhibition aims to highlight the co-growth and partnership between Korean dentistry and the dental industry. It is designed to allow attendees to reflect on the 100-year history and achievements of Korean dentistry while also directly experiencing the global standing and competitiveness of the Korean dental equipment industry.

Discover the History and Flavors of Incheon

Chinatown: A Top Destination for Exploring the Open Port's Heritage

Songdo New City: A Vibrant Hub for Shopping and Dining

Incheon is the city in Korea that first embraced Western culture. In the late 1800s, various Western countries, including China and Japan, which flocked to Incheon Port, referred to Incheon as 'Chemulpo' and established their residential areas in the region stretching from present-day Incheon Station to Sinpo Market. This area is known as the Open Port.

The railway line that starts from Incheon Station and connects to Seoul is called Line 1, and it is Korea's first urban railway line. Incheon expanded and developed its city along the stations of Line 1, starting from the Incheon Station area and heading towards Seoul. Currently, Incheon's population is 3.03 million, making it the second-largest city in South Korea after Seoul.

Chinatown is located right in front of Incheon Station, and it offers a variety of Chinese restaurants where you can taste Chinese food adapted to Korean palates. The most famous dish is jajangmyeon, made with Chinese-style soybean paste. Jajangmyeon is a fusion Chinese dish developed by Chinese people living in Chemulpo during the enlightenment period to provide cheap and filling meals to workers near the port.

The hill where Chinatown is located is called Jayu Park. The statue of General Douglas MacArthur at the top of Jayu Park is also famous. Incheon is renowned as the area where U.S. General Douglas MacArthur, who led the Allied Forces during the Korean War (June 25, 1950 - July 27, 1953), reversed the tide of the war with a surprise landing operation. The statue commemorates this history. From the top of Jayu Park, you can enjoy a panoramic view of Incheon's old downtown area.

The streets leading from Jayu Park to Sinpo Market are filled with charming cafes, restaurants, and various

attractions. Sinpo Market is famous for its dakgangjeong(sweet and sour crispy fried chicken), dumplings, and tteokbokki(spicy rice cakes). Dakgangjeong is a dish of fried chicken coated in a sweet and spicy sauce.

If you cross a major street from Sinpo Market, you'll find Dapdong Cathedral, Korea's first Catholic church. The cathedral was built in Chemulpo by the decision of French Bishop Blanc and was completed in 1897.

The 'Wolmi Culture Street,' located 4km away from Chinatown, is also a major tourist attraction. The seaside area is densely packed with seafood restaurants, cafes, amusement park rides, and small hotels. It's a popular destination for people from Seoul who want to see the ocean quickly.

Incheon Songdo New City, where the Korean Dental Association's 100th anniversary event is being held, is an international city developed in conjunction with the growth of Incheon International Airport. Songdo New City was originally a sea area, and large-scale reclamation work began in earnest in 2003. It has been developed into a city with global competitiveness in various fields, including international business, medicine, education, and tourism. Songdo Convensia opened in October 2008 and hosts a variety of exhibitions and events.

Near Songdo Convensia, you can enjoy shopping at Hyundai Premium Outlet, and a variety of restaurants are located around Central Park,

across from Songdo Convensia. Many of Korea's famous actors and singers reside in this area.

If you want to enjoy raw fish and alcohol while experiencing the atmosphere of the port city of Incheon in the evening, I recommend 'Mammoth Seafood Center' (17, Yeonanbudo-ro 33beon-gil, Jung-gu, Incheon) at Yeonan Pier. The seafood center has a concentration of various raw fish restaurants, and you can enjoy seafood dish sets at affordable prices. There is also a large-scale seafood market across from the seafood center.

By Su-hwan Jeon

The '100th Anniversary Ceremony of KDA' was held in grand style on the evening of the 11th at the Grand Ballroom of Songdo Convensia, attended by over 600 guests from the domestic and international dental community, government, and industry.

Park Young-guk, Treasurer of FDI;
Dr. Greg Chadwick, President of FDI;
and Park Tae-geun, President of KDA,

Park Tae-geun, President of KDA; Ahn Je-mo, President of KDIA and Organizing Committee Chairman Kang Chung-kyu.

Visitors are exploring the dental equipment exhibition hall.

Visitor is viewing the 'Chieui Mijeon'
(Dental Art Exhibition)

A participant attentively viewing a clinical poster.

'100 History Cafe' an exhibit offering a glimpse into 100 years of KDA history at a glance.

An orchestra performance celebrates the 100th anniversary of the foudation of KDA.

The celebratory performance energizes the atmosphere at the venue.

KDA PR Director Yu Tae-young and International Committee Member Kim Da-som host the second part of the event.

KDA executives pose for a commemorative photo, confident in the event's success.

FDI President Dr. Greg Chadwick presents a commemorative plaque to KDA President, Park Tae-geun in honor of the association's centennial.

Free oral health check-ups are being provided on a mobile dental clinic bus outside the venue.

Food trucks set up inside the exhibition hall.
