

WOAH Regional Workshop on Animal Movement and Border Control in Asia and the Pacific

Cross-border animal movement and animal products: **Experiences from South-East Asia** 

## Bolortuya, P WOAH SRR SEA

1-3 July 2025, Chiba Japan

- ➤ Overview of the Regional trade
  - Demand
  - Supply chain
- Initiatives in SEA Region
  - > SEACFMD Campaing
  - Upper Mekong Working Group
- Case Examples/Good practices

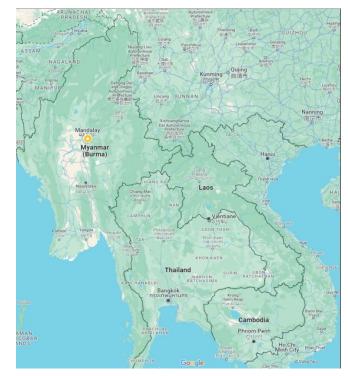

Demand
Supply chain

Regional
initiatives
Country/Case
examples

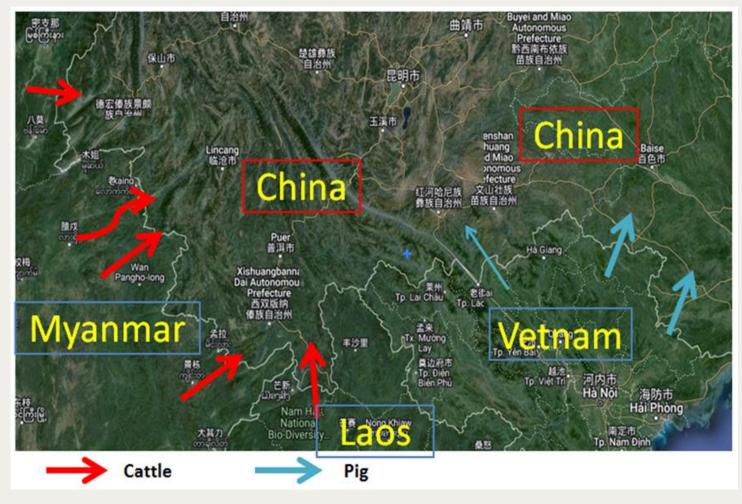

- Livestock contributes more than 20 -40 % of value added across Southeast Asia
- In SEA more broadly, **60–90% of livestock** (including pigs, poultry, cattle) are raised by small-scale producers (FAO)
- The widespread movement of large ruminants throughout South-East Asia and China has been extensively documented (Smith et al., 2017, Smith et al., 2015, Poolkhet et al., 2016, Shen et al., 2019, ADB, 2015, FAO, 2013)

Country	Livestock Share of Agricultural Value Added
Vietnam	~25–30%
Thailand	~20–25%
Philippines	~20–25%
Indonesia	~10–15%
Myanmar	~15–20%
Cambodia	~10–15%
Lao PDR	~15–20%
Malaysia	~10–15%

## Key areas of intensive animal movement

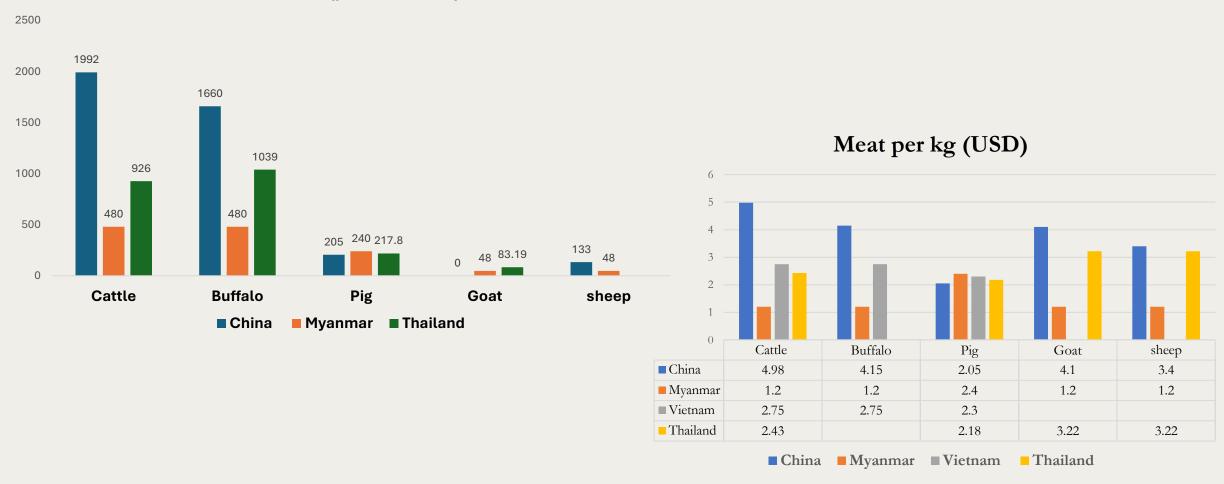

- It was estimated that approximately 1 million large ruminants were entering China from SE Asia each year ((Smith et al., 2015)
- Complex sources, 8 countries,
   South Asia and Southeast Asia

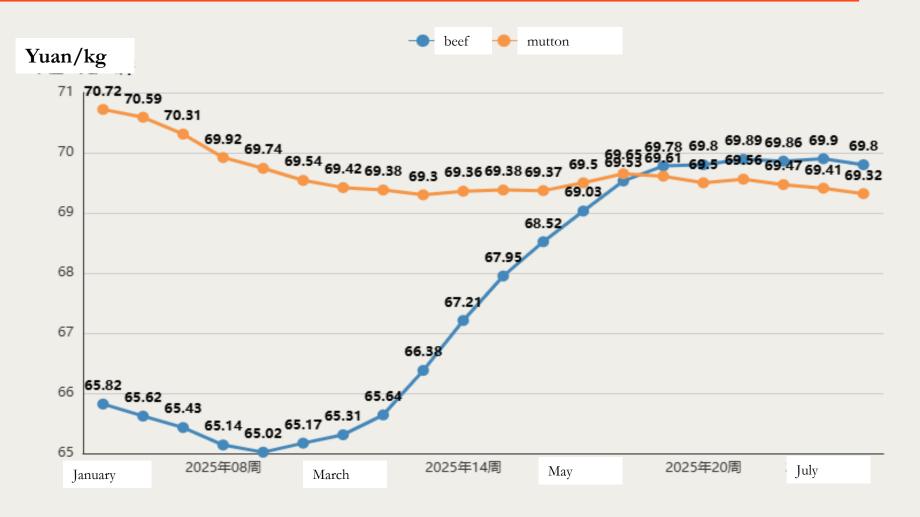

## **Livestock and meat prices**

#### Live animals (per head USD)

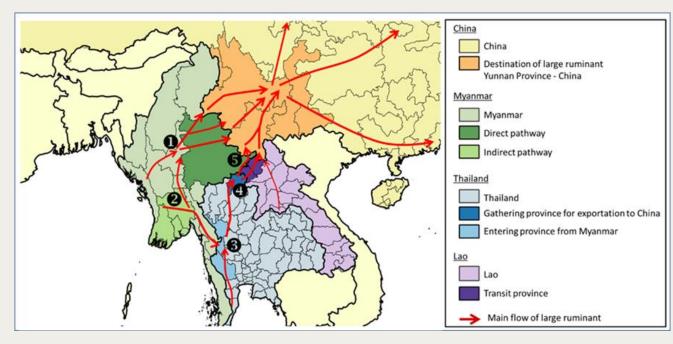

# **Meat price trends in China**

## SEACFMD ROADMAP 2021–2025

South-East Asia, China and Mongolia Foot and Mouth Disease Campaign

world organisation for animal health projecting animals, preserving our juture

Objective 2: Comprehensive evaluation of the SEACFMD Campaign from 1997–2020 to address critical gaps

#### SEACFMD Governan

- Sub-Commission
- Steering Co
- National Coordinator
- Enidemiology Network (
- Epidemiology Network (Epine
   Indianal (Indianal)
- Laboratory Network (Labinet

#### National Stakeholders

- Public sector
- · Private sector
- Research institutions and acade
- · Farmers and producers
- Consumers
- · Local communities
- Local NGO:

#### Regional stakeholde

- ASEAN
- OIE SRRSEA
- . FAO-RAF

#### Other technical and advisory Grou

- Private Sector Consultative Committee
- Regional FMD Expert Group
- Unner Mekong Region Working Grou

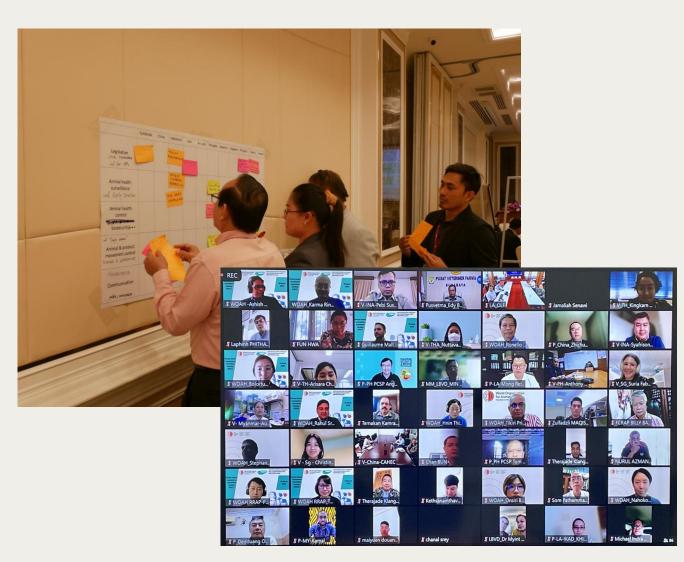

Output 1.2: Incentives and pathways of livestock movements are understood and official animal movements are promoted

### **Private Sector Consultative Committee (PSCC)**

The physical meeting took place in 2019, followed by the virtual meetings in 2023 and 2025

- ✓ to strengthen coordination and engagement of Veterinary Services (VS) and Private Sector.
- ✓ to better understand the challenges, Private Sector, industry, VS facing in FMD prevention and control, and opportunities going forward.
- ✓ to explore the creation of a sub-regional network of representative traders acknowledging their important role in FMD transmission in the sub-region and, thus, their potential role in FMD control.

### Upper Mekong Working Group on FMD zoning and animal movement

Year	Meeting	Country
2003	1st	Luang Namtha, Lao PDR
2004	2nd	Chiang Rai, Thailand
2004	3rd	Yunnan, China
2005	4th	Kyaington, Myanmar
2006	5th	Hanoi, Vietnam
2007	6th	Oudomxay, Lao PDR
2008	7th	Chiang Rai, Thailand
2009	8th	Mangshi, Yunnan, China
2010	9th	Hanoi, Vietnam
2012	10th	NayPyiTaw,Myanmar
2014	11th	Bokeo,Lao PDR
2015	12th	Vinh Phuc, Vietnam
2017	13th	Mandalay, Myanmar
2019	14th	Xishuangbanna, Yunnan, China
2024	15th	Luang Namtha, Lao PDR
2026	<b>16</b> <sup>th</sup>	Thailand (tbc)

- •a cluster approach to animal disease control;
- •promotion of trade in livestock and livestock products;
- •improvement of the delivery of veterinary services; and
- •the creation of FMD free-zones in the designated areas

# Upper Mekong Working Group on FMD zoning and animal movement

### management

Improve and harmonize national procedures for livestock and product movement.

Align animal health risk management with WOAH standards

Integrate bilateral trade agreements on livestock movement.

Promote technical collaboration and information sharing among member countries

Joint Statement on Harmonizing Procedures for Livestock Movement among πτ οτατεπιεπτ on marmonizing Procedures for Livestocκ Movement am Cambodia, China, Laos, Malaysia, Myanmar, Thailand and Vietnam

### Kutkai FMD Free Zone, Myanmar

Kutkai FMD Protection Zone

**Centralized Feeding Area** 

#### Key activities at the border control checkpoints specifically for FMD

Main responses implemented to rapidly control FMD outbreak

- (1) quarantine of the suspect premises,
- (2) sample submission to the laboratory
- (3) outbreak area officially defined to strictly control animal movement (Zoning)
- (4) animal check point set up
- (5) ring vaccination
- (6) outbreak investigation
- (7) cleaning and disinfection
- (8) Communication Awareness and education
- (9) surveillance

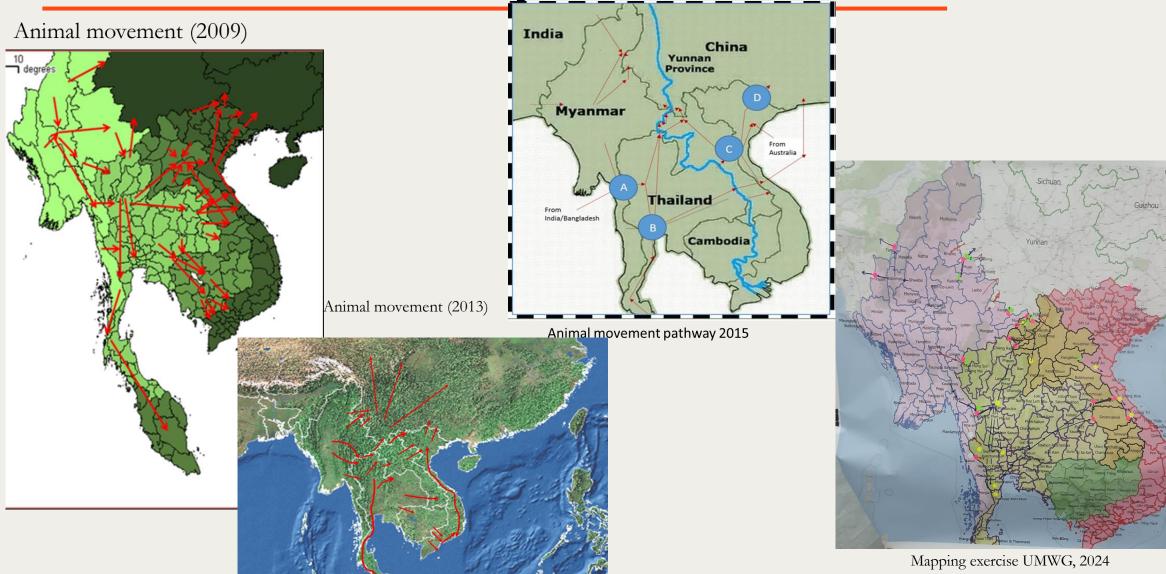

# E-movement system in Thailand

- The officer has access to receive animal disease notification
- Veterinary officers who have the authority to grant permission for the animal movements
- The system shows the expiration date of the movement permit document
